**ELECTION CENTER ANNOUNCES  
STATE REGISTERED ELECTION OFFICIAL (REO)  
CERTIFICATION PROGRAM**

The Election Center's state registered election official (REO) certification program is designed for state and local election officials and their staff members.

This training and certification program has been developed over several years and is now available to any state election office and/or state election association. The training program consists of eight core courses, with additional state-specific courses available upon request. For more detailed information, the Program brochure is posted on the Election Center's web site at <http://electioncenter.org/publications/REO%20Cards.pdf>

This program has been successfully pioneered in the states of California, Virginia and Delaware. Some states have offered the certification program to all election office staff members, empowering those employees to learn all facets of election administration.

If your association or state election office would like more information, please contact Tim Mattice, CERA, Director of Training at the Election Center at [tmattice@electioncenter.org](mailto:tmattice@electioncenter.org)
