#TRUSTEDINFO2020

Election Officials are your trusted sources for election information

PARTNER TOOLKIT

Nov. 12, 2019 Launch Date

National Association of Secretaries of State (NASS)
THE OBJECTIVE

NASS has launched #TrustedInfo2020—a new education effort to promote election officials as the trusted sources of election information. By driving voters directly to election officials’ websites and social media pages, we will ensure voters are getting accurate election information and cut down on the misinformation and disinformation that can surround elections.

#TrustedInfo2020 aims to highlight state and local election officials as the credible, verified sources for election information.

The nation’s Secretaries of State, 40 of whom serve as their state’s chief election official, along with other state and local election officials are continuously working to inform Americans about the elections process, including voter registration, state election laws, voting and much more.

"We must work together to combat election misinformation."
-Paul Pate
NASS President & Iowa Secretary of State
